A resident asked about the application for the botley bypass trees that are being taken down by the developer. The Town Clerk to send details of the Botley Bypass Planning Application.

A resident of Upper Northam Road asked about item 2 on the last minutes in that the Town Clerk was to provide a response regarding the boundary line. EBC have now provided a response to the questions raised regarding the residents planning application. The resident felt that the council offered no assistance to help residents.

The chairman responded that the Town Clerk had provided a response on the 23 October. The Chairman outlined the process as regards planning applications in that we are only a planning consultee and it is Eastleigh Borough Council who should be engaging with local residents and as Planning Authority have the final decision.

The chairman on the planning committee also noted that Hedge End Town Council had not objected to the planning application when it went to committee on the 5 December 2018. The council wanted to be assured that any development would not have a negative impact on the trees owned by HETC bordering the proposed development and this was in no way considered an objection to the development.
